JUBI Plasma

Exclusive Patented Energy Superior Ion Plasma Technology (eSIP®)

Plumping &
Moisturizing

Purifying

Blemish
Control

Anti
Aging

Active Particles

Reorganize the epidermal layer, improve the skin environment, and remove dead skin cells to maintain a healthy and slightly acidic pH for the skin.

Micro-electric particles

Low-temperature micro-current stimulates muscle movement, restoring skin elasticity.

Pulsing Waves

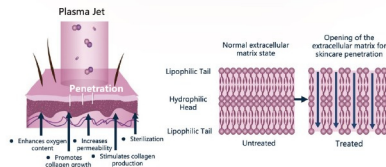

Remove the surface dirt from the skin, clean and organize the keratin layer

Microcirculation

Effectively brings in oxygen, aiding skin respiration and metabolism

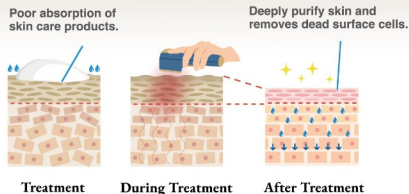

The Science Behind It

How does Plasma Work

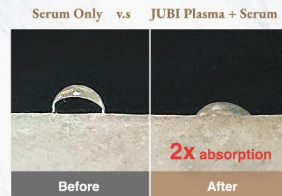

Plasma purifies and energizes the skin through reactive species, UV, and gentle heat, opening micro-pathways that boost absorption, renewal, and resilience.

Open Barrier for Deeper Essence Absorption

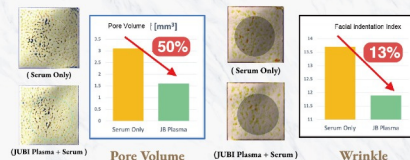

Clinical Evidence

JUBI Plasma Doubles Product Absorption

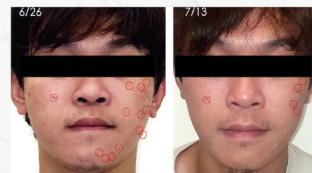

Immediate Results

Refines Skin Texture,
Minimizes Pores, Softens Wrinkles After a Single Treatment

Long-Term Results

Effectively Clears
Breakouts, Scars & Brightens Skin Tone

Participant received 10 applications within in 3 weeks.
